

## PROJECT PROPOSAL BATCH OF 2014 PROJECT

**Name:** Info Entertainment System at Mess

**Proposer:** Abhishek K Baikadi

**Project Brief:** Since now we have concept of Mega Mess, we need to use the max of the system. Installing TV/Projector and with sound system in each hall, we can deliver message to students more effectively.

Be it a Saarang/ Shastra video clips, Director New year message, Movie at OAT, Club activities (as poster or small clip) can be displayed. Some sports can also be put so students do not miss food during that time. When noting is available, it can be used for playing some songs/ video clips.

### **Benefits:**

- Student eat in peace : Good Health
- Convey message more effectively: Instead of just poster, now students can show talent in making small clips and display the same.
- Print lesser poster : Save Cost
- Discussion over mess table and hence more knowledge and chance to socialize.

### **Timeline:**

Event / Week	1	2	3	4	5
Tendering and Acquire LCD and Audio systems					
Wiring and Installation					
Setting up committee and moderator					
Making a S/W, server with help of Insti Web ops
