

PROJECT PROPOSAL

BATCH OF 2014 PROJECT

Name: Personality Development Class Proposer: Deepak Johnson

Project Brief: Interested students will be given training in improving their communicative skills by students who are proficient in handling English. The coaching will be more of a soft-skills session where the students (to be identified by hostel general secretaries) would be taught about Basic English grammar, literary skills and public speaking abilities.

Statement of Significance: We provide O level English classes for students in their first year. Even then there are many students who cannot communicate effectively. There is a drive among the students of later years for acquiring these skills but the options are enrolling for a course work during academic session or to have some groups help for placements. Along with, there are students belonging to SC/ST categories who struggle hard in competing with students of other categories in improving their capabilities. Through many fora, some of them have expressed their interest in staying back during the summer vacation period to cope with the academic load and to do general reading which might be impossible if they go home. These students are normally from 2nd or 3rd years and their financial conditions would not help them to stay back and pay for the mess. The project therefore can be in the form of a scholarship towards the development of the students attending the classes and as remuneration for the classes they take.

Timeline:

Invite for applications towards the position of instructors: Mid-April

Nomination of Student Members: End of April

Classes for Instructors: Second Week of May

Classes for Students: Third Week of May – Third Week of June
